Corporate Social Responsibility Statement

Building Options Limited aims to achieve clear and definite standards of ethical behaviour throughout all areas of business. We take responsibility for creating wider benefits both within and around our business, and endeavour to make our impact a positive one, which improves the lives of others and reduces the risk of harm to people and the environment.

Business Conduct

Our ethos is “Honestas, Integritas et Respectus”, put simply means we believe in being honest and acting with integrity and respect towards our clients, colleagues and suppliers. We focus on providing a competent and professional service, treating Clients as mutual partners, and working with all members of the supply chain fairly and ethically. It is our goal to safely complete all projects on time, within budget and to the required quality and standards associated with a professional business.

We only engage with supply chain members whose ethics and values are aligned to that of our own. We will maintain strong working relationships and standards, by consistently meeting agreed timelines, payment terms and operating professionally.

Through excellent planning, employing quality people, and a commitment to innovation, we meet and exceed the needs and expectations of our Clients and stakeholders. This can be partly demonstrated by the fact that over 98% of our business is from repeat custom or referrals.

Supporting the Community

We recognise that our business can make a positive impact in the community to both our customers and beyond. As part of this commitment we support many local charities and organisations, by making positive contributions whenever and wherever possible. These organisations include (but are not limited to): Cancer Research UK, the British Heart Foundation, Macmillan Cancer Support, and Oakhaven Hospice.

The Managing Director and senior managers give their full support to this Policy and shall ensure it is communicated, and implemented accordingly.

Dario Di-Felice MCIQB
